MARINE CORPS BULLETIN 1400

From: Commandant of the Marine Corps
To: Distribution List

Subj: OFFICER LINEAL PRECEDENCE

Encl: (1) Lineal Precedence List
(2) Officers who compete by Competitive Category
(3) Alphabetical List of Officers in the Marine Corps

1. Purpose. To publish lineal precedence information on officers in the U.S. Marine Corps and U.S. Marine Corps Reserve. This Bulletin should be used to determine promotion eligibility and relative seniority.

2. Cancellation. MCBul 1400 of 1 July 2011.

3. Background. Officer Lineal Precedence is an integral part of the Marine Corps Promotion System and is used to distinguish seniority among officers. Assignment and maintenance of lineal precedence affects each officer's seniority, provides a basis for determining an officer's eligibility for promotion, and drives the timing of the officer's promotion once selected. This Bulletin reflects seniority as of the date of publication.

4. Lineal Precedence Lists. Title 10, U.S. Code requires the Secretary of the Navy to maintain a list of all officers serving in the U.S. Marine Corps on active duty (active-duty list or ADL) and in the U.S. Marine Corps Reserve (Reserve active-status list or RASL). The Commandant of the U.S. Marine Corps (MMPR-1) is responsible for maintaining lineal precedence lists and for their annual publication.

a. Active-Duty List (ADL). Officers currently serving on active duty, except those described in section 641 of Title 10, U.S. Code, are listed on the ADL. Unrestricted Officers are carried on the ADL in order of seniority by rank. Limited Duty Officers (LDOs) described in section 5589 or 5596 of Title 10, U.S. Code are carried on a separate ADL in order of seniority by rank. Similarly, Warrant Officers (WO) and Chief Warrant Officers (CWOs) serving under section 574 of Title 10, U.S. Code are carried on a WO ADL in order of seniority by rank.

b. Reserve Active-Status List (RASL). Officers carried on the RASL are identified by section 14002 of Title 10, U.S. Code as in the Selected Marine Corps Reserve, the Active Reserve, Individual Ready Reserve, and the active-status list of the Standby Reserve. Unrestricted Officers are carried on the RASL in order of seniority by rank. Reserve Warrant Officers (WO) and Chief Warrant Officers (CWOs), under section 12242 of Title 10, U.S. Code and SECNAVINST 1412.9B are carried on a WO RASL in order of seniority by rank.

5. Initial Assignment of Lineal Precedence. Officers commissioned as second lieutenants in the Marine Corps and placed on the Lineal Precedence List are not assigned permanent precedence until completion of one year active

**DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.**

commissioned service or completion of The Basic School (TBS), whichever is later. Until that time, service academy graduates are placed on the Lineal Precedence List in order of their class standing at their service academy. Per DoDI 1310.01 of 3 May 2006, second lieutenants commissioned between 1 May and 30 June of each year have a date of rank of first commission the same as that for the U.S. Naval Academy graduating class for that year. They will be listed alphabetically after service academy graduates. All other officers shall be listed alphabetically within each date of rank.

6. Permanent Assignment of Lineal Precedence

a. Unrestricted Officers. Permanent precedence is assigned according to overall class average at TBS for all ADL and RASL officers. Officers for whom no TBS class average can be computed will be listed among themselves alphabetically within each date of rank until completion of TBS when they are merged in their appropriate precedence.

b. Limited Duty Officers (LDOs). Per SECNAVINST 1412.9B, precedence is established in the same relative seniority held in each officer's permanent chief warrant officer or enlisted grade upon acceptance of appointment.

c. Chief Warrant Officers (CWOs). Per SECNAVINST 1412.9B, lineal precedence numbers for warrant officers, W-1 and chief warrant officers, CWO-2 on the ADL are assigned based upon class standing at the Warrant Officer Basic Course. For warrant officers on the RASL, precedence is established in the same relative seniority held in each officer's former enlisted grade upon acceptance of appointment to warrant officer, W-1.

7. Maintenance of Lineal Precedence. Once established, lineal precedence is normally only changed by promotion or appointment to the next higher grade.

8. Competitive Categories. Competitive categories for officer promotions in the Marine Corps are defined in SECNAVINST 1400.1B. They fall into two broad areas:

a. Unrestricted Officer. Unrestricted officers compete for promotion to the next higher grade regardless of military occupational specialty (MOS) on the ADL, RASL, and the AR Program.

b. Restricted Officer

(1) Limited Duty Officers (LDOs). There are presently 14 competitive categories for LDOs within the ADL (the Reserve component does not have LDOs). LDOs compete for promotion to the next higher grade based on grade and MOS.

(2) Chief Warrant Officers (CWOs). There are presently 45 competitive categories for CWOs within the ADL and RASL. CWOs within the ADL and AR program compete for promotion to the next higher grade based on grade and MOS. CWOs within the RASL compete for promotion to the next higher grade based on grade and not MOS.

9. Using this Bulletin

a. Bulletin Composition

(1) Lineal Precedence List. Enclosure (1) contains the lineal precedence list for all officers in the U.S. Marine Corps and U.S. Marine Corps Reserve regardless of component (ADL or RASL) or competitive category.

(2) Officers who Compete by Competitive Category. Enclosure (2) contains a lineal precedence list by grade and competitive category (MOS) for LDOs and CWOs within the ADL and AR program. Officers are listed in order of seniority by grade and MOS.

(3) Alphabetical Lists. Enclosure (3) is an alphabetical listing of all officers in the U.S. Marine Corps and U.S. Marine Corps Reserve for quick reference within the lineal precedence lists.

(4) Data Fields. Enclosures (1) through (3) provide the following information for officers on the ADL or RASL as of the effective date of this bulletin:

(a) Lineal Control Number. The number listed in the left column is an indication of seniority in grade as of the effective date of this Bulletin. This number is referred to in the MARADMIN messages announcing promotion board eligibility.

(b) Pay Grade (PGRD). Identifies the officers' current Pay Grade.

(c) List. This column provides the competitive category in which the officer is eligible for consideration by the board.

(d) Name. Officers' last name, first name, and middle initial.

(e) Date of Present Rank. The date shown in this column is the present date of rank for this officer as of the effective date of this Bulletin.

(f) Select Designation. Officers with an asterisk ("*") have been selected to the next higher grade, but the promotion has not been effected.

b. Location of an Officer. Officers can be located in the alphabetical section of this Bulletin, see enclosure (3). The alphabetical section reflects the officer's lineal number which can be used to locate a specific officer's placement within the Lineal Precedence Listing, enclosures (1) and (2), respectively.

c. Determining Promotion Eligibility. Convening dates for promotion selection boards are published annually in MARADMINS. Officers should be aware of their respective board's convening date. Specific instructions for each board are published in a Convening Notice 30 to 45 days prior to the board's convening date. A MARADMIN will reference the current edition of this Bulletin, and will include the name and lineal precedence number (LCN) for the senior and junior officers within the appropriate zones. All officers listed in this Bulletin who are senior to the junior officer eligible, not already selected for promotion, still on the ADL or RASL, and not otherwise excluded by regulation, are eligible for consideration by the board.

10. Running Mates. Currently the Marine Corps is not using the running mate system. However, in years where the Secretary of the Navy directs the implementation of Section 14306 of Title 10, U.S. Code, each officer on the RASL shall have a running mate who is an unrestricted officer on the ADL with the same grade, date of rank, and who is next junior to the Reserve officer, in accordance with SECNAVINST 1427.1C.

11. Recommendation. Recommendations/discrepancies concerning or noted in the Officer Lineal Precedence List should be referred to the Commandant of the Marine Corps (MMPR-1), Harry Lee Hall, Building 17, Lejeune Road, Quantico, VA

22134-5104 or e-mail OfficerPromotionSection@USMC.mil.

12. Reserve Applicability. This Bulletin is applicable to the Marine Corps Total Force.

13. Cancellation Contingency. This Bulletin is cancelled when superceded by the next annual Bulletin.

A. SALINAS
Director, Manpower
Management Division
